

Call for Contributions&Participation

Joint User Conference of Annual ACM/GI RG Berlin-Brandenburg & EU Network of the R2GS Clubs in Europe

„Schloß Steinhöfel Seminar (3S'14)“

14.-15. Mai 2014

The „Schloß Steinhöfel Seminar 2014“ (3S'14) combines the User Assemblies of the 11th Annual GI/ACM Regional Group Berlin-Brandenburg (RG BB) with the EU Network of the R2GS User Clubs in Europe (LUX, UK, FR, DE, IT) devoted to issues of Cyber Security and Critical Systems (CRITIS).

Since the year 2014 has been announced by Governmental Administrations the year of the 'Digital Societies' this Call is devoted to Best Practices in Applying IT/TC Security Technology from point of view of all stakeholders anticipating Digital Society.

Security in the Digital Society must address methodological and technological issues of implementation, control, test and measurement, and prevention of attacks from all types of Critical Infrastructures (CRITIS).

Practitioners, Users, SOC/SIRT Operators and Applicants who consider to make a presentation shall address issues of appliances. In case, please send as an extended abstract (ca. < 3 pages) including titel, authors, primary affiliation, addressing:

- Daily practice of securely managing and operating CRITIS;
- Methodological approaches of Deciding on the Criticality of CRITIS Services and Behavior;
- Use Case Specifications by applying ETSI ISG ISI benchmarks of Security Indicators;
